

Ignition Interlock Operator's Affidavit for Out-of-State Residents

Operator's Name: _____ License# _____

Date of Birth: _____ Phone# _____

Address: _____

City/Town: _____ State: _____ Zip: _____

- I understand that I am required under Massachusetts General Laws, chapter 90, section 24 and 540 CMR 25.00, to install and maintain an Ignition Interlock Device on each vehicle that I own, lease, or operate, as a condition of operating a motor vehicle in Massachusetts.
- I understand that if I fail to equip my vehicle with an Ignition Interlock Device while driving in Massachusetts that I am subject to **criminal** fines and penalties.
- In the event that I relocate to another state, I will **not** operate a motor vehicle in Massachusetts unless it is equipped with an Ignition Interlock Device, as long as I am required to maintain a device on my vehicle under Massachusetts law.
- I further understand that if I obtain a license in a state that does not require me to install an Ignition Interlock Device on my vehicle, that I will **not** operate a motor vehicle in Massachusetts unless it is equipped with an Ignition Interlock Device.
- I understand that if I obtain a license from another state and continue to maintain an Ignition Interlock Device on my vehicle, I will be credited for the time that I maintained an Ignition Interlock Device on my vehicle, should I return to Massachusetts and reapply for a Massachusetts license.
- In order to receive credit for the time I maintained an Ignition Interlock Device on my vehicle while residing outside of Massachusetts, I must provide the Massachusetts Registry of Motor Vehicles with proof that I maintained and serviced the Ignition Interlock Device, and was in good standing, during that period for which I seek credit.
- I understand that if I currently reside in another state or hold an out-of-state license which does not require the installation of an Ignition Interlock Device, I **cannot** drive a motor vehicle in Massachusetts unless it is equipped with an Ignition Interlock Device.
